

Designed for the Special Forces, the CAA-SMG HDP50 has found favor with SWAT and also by Security Companies. Our STTI-SMG Revolver Carabiner Kit allows you to quickly convert your Marker without any modifications. The CAA shoulder stock design ensures the SMG stability to greatly improve aiming accuracy.

Compatible with:
UMAREX T4E HDP50

Main Material:
Nylon Fiber; Aluminum
Weight: 1930g
Min. Length: 500mm
Max. Length: 570mm

CAUTION:

Read the instructions before installing this product.
This product is for airsoft only.
User of this product must be over 18 years of age.
Ensure that the pistol is not loaded prior to installation.
Always wear eyes protective gear.
CAA is not responsible for any damage due to installing or using this product.

Always wear eyes protective gear.

NEVER look into the gun muzzle.

NEVER point the gun or to shoot towards a person or an animal.

Store the air gun at places out of reach by children.

Always put the gun in a case or bag when you are carrying it.

Always put your finger away from the trigger except when you are ready to fire the gun.

Set selector lever at the "SAFE" position and remove the magazine when the rifle is not in use.

Even if the magazine is removed, there might be remaining BB bullet in the gun which still can be shooting.

COMPONENTS NAME

The RONI Pistol-Carbine Conversion is ergonomic designed and equipped with ambidextrous front and rear sling mounts, and large charging handle. Charging the weapon is easy and it is user friendly to both left and right handed operators. It is integrated with a CNC machined Aluminum top and 2 side rails for mounting accessories, and a Nylon Fiber lower rail to mount any forearm grip. The RONI is equipped with an adjustable 5 position buttstock, and features a spare magazine holder for faster reloading. The adjustable cheek rest on the buttstock is removable. The RONI Pistol Carbine Conversion includes a pair of flip-up sights, a detachable folding forearm grip and a charging handle.
